FOOTWEAR

DSI footwear is the most comfortable and durable footwear anywhere. Worn by 13 of the top 14 DCI World Class drum corps, numerous BOA Grand Nationals bands, and thousands of colleges and high schools around the country, DSI footwear is always in-stock and available in the largest selection of colors and sizes.

We offer five notably different shoes in a family that values quality, need, and comfort.

13 OF THE TOP 14 DRUM CORPUS MARCH IN DSI FOOTWEAR

CROSSOVER

*The First and Only Athletic Shoe
with a Marching Band Sole*

For use in practice and performance by colleges, high schools, drum corps, and indoor percussion.

Visit [CrossoverShoe.com](https://www.CrossoverShoe.com) to see Dr. Tom Freeman talk about the features of the Crossover shoe and how this shoe helps prevent foot injuries!

Xtreme Tendon Fit®

■ CROSSOVER

DESIGNED SPECIFICALLY FOR HIGH PERFORMANCE MARCHING, THE XTREME TENDON FIT® WRAPS AROUND THE MID-FOOT AND IS SECURED BY THE LACES FOR UNMATCHED SUPPORT. NO OTHER MARCHING SHOE PROVIDES THIS MUCH STABILITY AND COMFORT.

- Lightweight mesh upper allows the foot to breathe and stay cool
- Supportive heel holds the foot in place and keeps the foot stable
- All rubber non-marking, non-slip sole performs on any surface
- The Flex Groove heel strikes the ground cleanly and allows for a smooth transition to the forefoot
- The midsole is carved out 35mm to allow plenty of room for spats
- Heel Lock Eyelet keeps the foot in place and helps prevent injuries

Men's Medium Sizes | 2^{1/2} - 12^{1/2} (whole and half sizes) plus 13

The gold-standard

The 2019 shoe of champions! Stepping onto the footwear stage in 2001, the MTX is our flagship shoe. It was the shoe that changed the industry, and still remains the gold standard for traditional marching footwear.

Designed for the long haul, the MTX brags comfort and durability but displays a formal appearance. It offers optimal grip in the sole functioning like a directional tread design on a tire. The heel is designed to support rapid acceleration on step-offs and to absorb impact when placing the heel. So whether you are marching the halftime show or hauling at 160 BPM, you can be sure that your feet will be protected and comfortable.

■ MTX

- Pliable upper with padded tongue and ankle collar
- X-TremeTrak sole design provides maximum grip and stability
- Power Blok heel for secure heel placement and rapid acceleration
- Reinforced toe box reduces wear
- Fully lined upper with moisture-wicking material
- Thick, cushioned insole and heel cup for superior comfort and support
- Designed for stability and support

VIPER

Tradition meets contemporary

The marriage of traditional and modern marching band. Sleeker than the MTX, the Viper is a formal-looking marching shoe designed for a contemporary marching style. The sole, while still offering optimal grip and stability, is designed for a band that dances as much as it marches. We've placed a twin sole on the shoe, providing the same heel stability as the MTX, but offers the split sole of a jazz shoe. This added flexibility offers confidence to the marcher leading toe-first just as much as to the marcher nailing an 8 to 5 on a direction change. Further, this shoe has additional padding on the ankle collar to support the Achilles during all maneuvers, dance or otherwise.

■ VIPER

- Pliable upper with padded tongue and Achilles-supporting ankle collar
- Twin sole design provides maximum arch flexibility
- Non-marking sole with anti-scuff toe protector
- Fully lined upper with moisture-wicking material
- Thick, cushioned insole and heel cup for superior comfort and support

DRUM & BUGLE CORPS

The dancing shoe

Designed specifically for bands who dance intensively, this shoe is made for pointed feet and comfortable turnout. It is the most sleek and narrow of our shoes, but maintains the trusted DSI durability.

The Velocity brags a low, more attractive profile, hugging the foot and appearing to represent the shape of a jazz shoe more than a marching shoe. The tread pattern is more inset than the other shoes in our line, and the rounded front and back of the sole allow for a smoother transition between the heel and toe. The sides of the shoe are lower to the ground and the toe box includes additional padding. This sleek, hugging architecture allows the marcher to manipulate their feet more freely than in the MTX or Viper. The shoe is lightweight, so marchers won't feel the burden of clunky shoes while executing choreography. But while the Velocity is constructed to feel and appear as invisible as possible, it is capable of functioning on grass, turf, and parade streets with no notice by the wearer.

■ VELOCITY

The Ultimate Choice For Comfort Durability & Value

COMFORT

Built to provide long-lasting comfort with a soft Napa upper. Cushioned insoles. Padded collars and maximum support.

DURABILITY

Survived the brutal punishment of the world's top drum corps for the entire season. That's because all DSI shoes have soles that are sewn to the upper. Simply put, they won't fall apart.

The black tie marching shoe

Fancy isn't reserved for the stage. The Showstopper Patent is a great go-between for marching and concert band at an affordable price point. Our pioneer shoe in the DSI line, the Showstopper Patent has been donned by many performing groups, most recently by The Cadets.

We've redesigned the sole to be able to handle outstanding wear and tear. It provides superior grip on the field and has a reinforced toe box to reduce wear from high intensity movement. And although this shoe looks the black-tie part, the soft upper is designed with moisture-wicking material so performers don't have to experience the suffocation of traditional dress shoes on the field or the stage.

■ PATENT SHOWSTOPPER

- Soft, pliable upper with shiny, patent finish, padded tongue and ankle collar
- Turned heel for performing intricate maneuvers
- Thick, cushioned insole and heel cup for superior comfort and support

INTRODUCING NEW SIZES FOR 2019

Not all marchers are the same size. And marching band is not for the high school musician alone.

So why are bibbers only sized to a certain point?

Does "short" have to mean custom? No.

DSI is proud to introduce our new "shorter size" and "youth size" bibbers. We kept the same quality as our premium bibbers but expanded our in-stock size range to include smaller sizes.

These bibbers are perfect for middle school performers and performers who don't fit into the standard sizes. Welcome to the new, expanded standard!

Shorter Sizes: 24-34 (even sizes only) **with 28" inseam**
Youth Sizes: 16-22 (even sizes only) **with 28" inseam**

GUARD SHOES

Flexibility, durability, control. From the material that brought you the Ever-Dri gloves, here is a jazz shoe developed to maximize comfort -- indoor and outdoor. The Ever-Jazz shoe was designed specifically for guards by those immersed in the guard industry, and is built to last. Its split sole design provides both control and ultimate flexibility while fitting your foot as well as our Ever-Dri gloves fit your hands.

EVER-JAZZ SHOES

The Ever-Jazz shoe was developed for dancers by dancers. Whether you perform on the field or in the gym the Ever-Jazz is designed to last. The split sole gives you the ultimate flexibility while fitting your foot like a glove. The Ever-Jazz is made from the same material as our popular Ever-Dri gloves which means they are 100% washable so you can keep your shoes looking like new!

■ STARLITE 2 SHOE

November competitions and outdoor winter guard warm-ups bring dread to color guards wearing traditional studio jazz shoes. Feel the music, not the pavement!

Designed with the color guard foot in mind, the StarLite 2 dance boot has the comfort of a studio shoe with the rugged durability of a jazz sneaker. Thanks to its protected split sole and durable Napa upper, this shoe is optimal for rugged outdoor use and offers maximum flexibility for indoor use. Custodians appreciate the non-marking rubber soles, and members love the reinforced heel, toe, and sides. It's tough to chase when you're tripping over laces! Elastic side inserts offer slip-on, slip-off ease and eliminate the need for laces. The snug fit reinforces your arches: pointed, forced, or flexed; the cushioned insoles make landing on any surface feel like turf.

MATCH YOUR SKIN TONE

Finally, an easy way to make your shoes appear invisible

It's been a common problem for years. Your shoes really stand out because there is such a contrast between your skin tone and the color of the shoes. Finally, there's an easy way to keep the focus of your performance on you and not your feet. The "skin tone matched" shoe spray from DSI is easily applied to any guard or dance shoe to make your shoes appear "invisible" on your feet. No preparer is necessary when applying to the Ever-Jazz shoes. Just spray and go!

RIFLES

Elite rifles are the industry's best selling rifles. The Official Rifles of WGI, count on DSI rifles to be perfectly weighted and balanced.

Meet the World Class, best-selling rifle in the industry! Living up to their name, the Elite rifle series outperforms and outsells competitors year after year, and it is clear why.

Dependable. Elite rifles are used by the world's top drum corps, winter guards and marching bands.

Personalized. The Official Rifle of WGI has a variety of options in sizing, accessory color, and strap material, allowing you to outfit your rifle line with a product that will challenge them. From the original Elite 4, to our "twixter" hybrids (Elite 2 & 5), to the harder-skinned Elite Pro's, this series outperforms the rest because it offers exactly what your color guard needs.

ELITE PRO RIFLES

The "Arc 1" is considered a "legal piece of equipment" which qualifies towards WGI "equipment time" requirements.

Meet the Arc 1. This "non-weapon" twirling prop is a great alternative for programs operating under more restrictive school codes, or for guards who want to add a fresh and modern look to their performance. The Arc 1's new unique and modern design includes a more contoured shape and a rounded end minus the bolt and strap, making it feel like a rifle without looking like one. The bottom line: the Arc 1 delivers the same function, feeling, and fierce appearance as our rifles.

“

I recommend the Arc 1 to any colorguard director who's looking for a very sleek piece of equipment that their students can adapt to very quickly. At Flower Mound we used the Arc 1 to train our entire guard on weapon- and I believe the design of it really allowed our students to be successful!

- William Martin
Color Guard Director Flower Mound High School

”

ARC1

The new Arc 1 is more contoured than a traditional rifle and features a rounded end for a more unique look. Available in 37.5" length and no strap, this "non-weapon" twirling prop is a great alternative for strict school codes.

The Only Sabre with a Limited Lifetime Warranty

In Medieval legend, Excalibur represented the most honorable achievement and idea of glory that a knight could ever obtain. The sword symbolized strength, desire, and dependability. In fact, it was fate for the one who could acquire Excalibur to rule the Kingdom of England. While we can't promise the fulfillment of a prophecy, nor can we legally offer the reign of a country, we CAN promise a sabre that possesses the same qualities as its namesake. The Excalibur, used by world class groups such as Onyx and the Blue Devils, promises a durable and beautiful product that will stand the test of time. In fact, we believe in this sabre so much that we have guaranteed its quality for life. Spin the Official Sabre of WGI. Spin a sabre that will work as hard as you. Spin Excalibur.

The Samurai Sabre was developed with a new handle and blade design to look, feel and spin like our Spanish-style, Excalibur Sabre.

HELPFUL HINTS!

- If your color guard or dance line is wearing a fitted garment and you're looking for ways to smooth and shape their bodies, we recommend purchasing this seamless, heavy-duty lycra tank unitard to be worn underneath.
- You should purchase the unitard one size smaller than the student's costume size. This will provide the student an overall smoother and slimmer look and assist in masking underwear lines, etc.
- If your costume is light in color, we recommend the tan/nude unitard; if the costume is dark or you have performers with a darker skin tone, we recommend the black unitard.

Unitard Care Instructions: Machine wash warm, air dry. Do not iron or bleach.

Size Chart A

SIZING GUIDELINES

1. Keep measuring tape straight against body, not tight. Do not add or take away inches.
2. Wear a leotard or underwear when measuring (not street clothes).
3. It's best to have one or two people doing all the measuring.
4. If measurements fall between sizes, order the next larger size.
5. Garments may be taken in, but in most cases cannot be let out.
6. Customer must convert to sizes according to chart below. This chart does not customize each individual. Please send measurements with your order for our records.
7. Sizes over XL may incur an extra charge per garment.

All special order garments are made to your specifications and cannot be returned

BUST/CHEST:

Measure the bust around the fullest part, keeping the tape close under the arms and across (not under) the shoulder blades

HIPS:

Stand straight with heels together and keep tape parallel to the floor as you measure the fullest part

WAIST:

Measure the narrowest point

GIRTH:

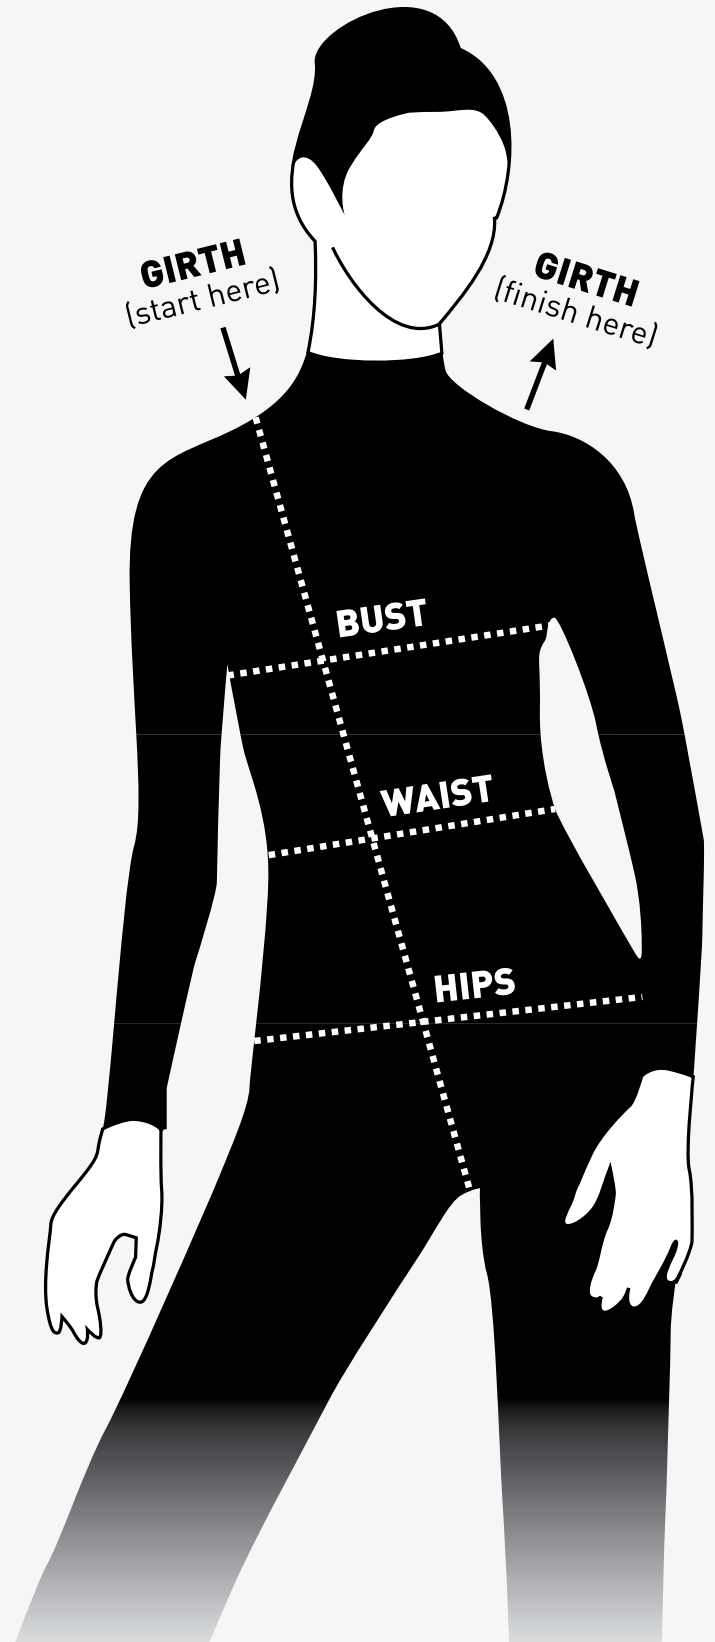

Measure from the center of the right shoulder through the crotch, up to the center of the left shoulder

FEMALE SIZE CHART

SIZE	BUST	WAIST	HIPS	GIRTH

XL	44-47	39-42	68-71
2XL	48-51	43-47	72-75

Size Chart B

SIZING GUIDELINES

1. When in doubt, always order the larger size.
2. Consider all measurements when selecting the size. Also consider what type of garment you are ordering as to what measurement is most important.

All special order garments are made to your specifications and cannot be returned

BUST/CHEST:

Measure around the fullest part (A-B)

WAIST:

Measure at natural waistline (C-D)

HIPS:

Measure around fullest part, 7" down from waist (E-F)

SKIRT LENGTH:

Measure from natural waistline to length (G-ankle)

SLEEVE LENGTH:

Measure from top of shoulder to wrist bone with arm hanging down at side (H-I)

HEIGHT:

Without shoes on, measure from top of head to floor

Notes

1. Dress, top, tunic, bodice and shirt orders based on chest size
2. Pants and skirt orders based on waist size
3. Unitard and jumpsuit orders should consider chest, waist and hips sizes. (Note: provide height to ensure best fit)
4. All male orders should say "MALE" to ensure proper fit
