## Professional Percussions

### CAP2 SYMPHONIC

Two years ago Bergerault introduced the CAP2 Symphonic crotales. By adapting the traditional tuned crotales (antique cymbals) with a foot pedal damper, Bergerault has created a modern, innovative instrument for symphonic orchestras. These instruments, integrated in a contemporary repertory, are bronze cast and can be assembled on a standard stand.

Range: 1 octave C6 to C7

Standard tuning: A = 442 Hz

Length: 1420 mm

Width: 570-250 mm

Adjustable Height: 820 to 970 mm
