# HIGH-QUALITY, DURABLE MU THE ONLY BETTER INVES IS IN THE STUDE

Music makes the world a better place. Music educators know that pursuing excellence requires high-quality equipment that is durable, dependable, and designed for the daily demands of practice and performance. By using the highest-quality materials combined with superior workmanship, Harry Wenger was able to grow a business from an Owatonna, MN

# SIC EDUCATION EQUIPMENT: TMENT YOU CAN MAKE **NTS THEMSELVES**.

basement into the standard of the music education industry today. While we are known for selling music education equipment, what we have really sold since 1946 is value. The only better investment you can make is in the students themselves. Wenger

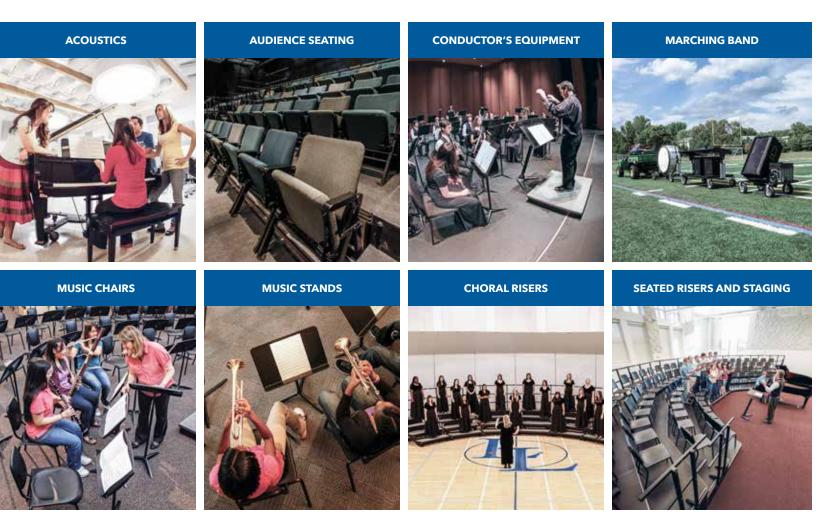

## "WE STARTED WITH THE SOUSAPHONE CHAIR, THEN IT WAS OUR CHORAL RISERS, AND THEN... WELL THEN IT JUST TOOK OFF FROM THERE."

- HARRY WENGER, FOUNDER OF WENGER CORPORATION

Since 1945 we have worked closely with music educators. Those partnerships have given us a focused understanding of customer needs and helped us to create interactive, high-value products and services to enable and inspire great performances. We are pleased to take this opportunity to showcase all of the reasons Wenger products are the ideal choice for your program. Above all, we value our relationships, and take pride in helping music educators nationwide thrive and succeed. In addition to this catalog and our website, our sales representatives are always here to assist and consult with your program needs. Our goal is to provide you with all of the necessary tools and information to help you make informed purchasing decisions. We thank you for your business and look forward to working with you in the upcoming year.

# A PRODUCT LINE STANDING

For more than 70 years, we at Wenger have crafted so many innovative products that it's hard to find a music facility that doesn't have something stamped with the Wenger logo. Our product line and support services before, during and after the sale demonstrate our commitment to functionality,

# WORTHY OF A OVATION

durability, innovative design and customer satisfaction. Take the time to discover everything we offer and see for yourself why Wenger products set the industry standard for quality and ingenuity.

# **CHAIRS**

Wenger is the leader in music posture chair design. No matter the need, the level of performance, or size of the musician, Wenger has a chair that is perfect for everyone. Better posture, improved technique, protection for valuable instruments and undisputed value. These are just a few of the attributes that make Wenger the industry leader with regards to music education seating.

"Posture is the basis for everything you do as a musician, and having the right posture alleviates problems for students. And if the students are comfortable, they are going to focus on their playing."

- Michael Eddy, Fine Arts Coordinator, Henry County School System, Georgia

# **MUSIC POSTURE CHAIRS**

## **STUDENT AND MUSICIAN CHAIRS**

There can only be one original. Wenger Student and Musician Posture Chairs are the tried-and-true seating solution trusted by educators for over 70 years. These chairs provide just the right amount of support and comfort while promoting a more natural performance. The Musician model adds padding for increased comfort during long sessions.

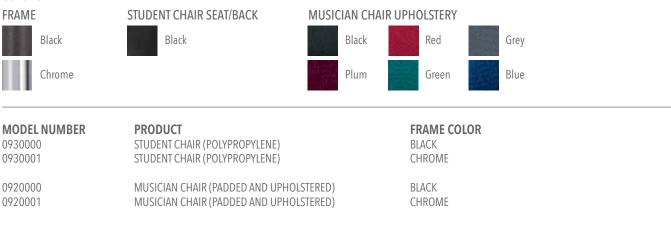

## FEATURES/SPECIFICATIONS

- Posture chair design promotes easier breathing
- Student model has wear-resistant polypropylene seat and back for even weight distribution, improved comfort and long-lasting durability
- Musician model is padded and upholstered for added comfort
- Chair glides provide increased durability and stability
- Six heights available to accommodate most musicians, seat-to-floor frame heights of 15½", 16", 17", 17½", 18½" and 19½"
- GREENGUARD Certified

## **NOTA® CHAIRS**

Nota chairs are the result of 70 years of expertise, know-how and a deep understanding of musicians' needs. Nota's patented position/transition seat, rounded waterfall front and narrow convex back are designed for superior fit and deliver comfortable and smart ergonomics in equal measure to improve posture, breathing, focus and performance.

## FEATURES/SPECIFICATIONS

- Durable, powder-coat paint or chrome finish
- Durable, specially designed stacking bumpers and floor glides
- Chairs stack easily or fit on our Move & Store Cart
- Rounded design protects valuable instruments
- A wide array of seat-to-floor frame heights 141/2", 16", 171/2", 19" and 201/2"
- GREENGUARD Certified

"A chair like the Nota Chair, that allows a musician to sit comfortably and play efficiently and easily, can certainly help musicians maintain their good health."

- Dr. William J. Dawson, Past President of the Performing Arts Medicine Association

# **MUSIC POSTURE CHAIRS**

## **NOTA<sup>®</sup> CONBRIO<sup>®</sup> CHAIRS**

Performing music is a dynamic activity. Musicians need a chair that's just as dynamic. The patented cantilever frame's innovative, adaptive design, helps to facilitate more dynamic play, improved blood flow and more focused attention. Because the last thing on a musician's mind during a big performance should be the chair they are sitting on.

## FEATURES/SPECIFICATIONS

# SPECIALTY CHAIRS

## **CELLIST CHAIR**

A unique playing position demands a chair that is just as unique. The Cellist Chair has been specially designed to comfortably promote the difficult lean-forward position required by cellists. By properly stabilizing and supporting the musician, they are free to focus on the demands of the performance and their technique, not the chair.

## FEATURES/SPECIFICATIONS

- Provides the ideal lean and balance requirements for a cellist
- 16-gauge steel frame with powder coat paint finish
- Fully cushioned seat and back with non-slip upholstered surface for long-lasting comfort
- Stackable or compatible with Wenger Move & Store Cart
- Two seat-to-floor frame height options of 181/2" and 191/2"

## SYMPHONY CHAIR

The Symphony Chair is the ultimate expression of Wenger's musicianfirst design philosophy. Every curve and angle has been thoughtfully engineered to optimize posture and improve comfort and breathing during the performance. With full lumbar support and a contoured seat that eliminates pressure points, the Symphony Chair performs as though it is an extension of the musician's body.

## FEATURES/SPECIFICATIONS

- Posture chair design promotes easier breathing
- Durable 14-gauge oval tube frame with powder coat paint finish
- Adjustable seat angle
- Premium, durable upholstery and formal, all-black styling
- Two seat-to-floor frame heights options of 181/2" and 191/2"

## **CONDUCTOR/STRING BASSIST/PERCUSSIONIST CHAIR**

Nobody understands the unique posture requirements of musicians like Wenger. The Conductor/String Bassist/Percussionist Chair is proof of this industry-leading expertise. The chair's upright, half-seated position puts the conductor in the ideal position to direct. The chair's upright posture and swivel lock makes it a great solution for string bassists and percussionists, as well. Fully adjustable design enables musicians the flexibility to find their own ideal position.

## FEATURES/SPECIFICATIONS

- Cushioned seat supports half-seated, half-standing posture
- Seat swivel locks for bassist use and swivels 170-degrees for the extended range of percussionists
- Combined pneumatic seat height and footrest adjustment
- Low back and small, rounded seat
- Strong, durable black steel framing
- Seat-to-floor frame heights of 261/2" to 361/2"
- GREENGUARD Certified

## PRODUCT

CONDUCTOR'S/STRING BASSIST/PERCUSSIONIST CHAIR

"I like the adjustable height Conductor's Chair. I'm short and can vary the height to suit my preference. It goes up and down smoothly and is easy to move."

- Nancy Epperson, Orchestra Director, Lady Bird Johnson Middle School, Irving, Texas

# **SPECIALTY CHAIRS**

## **SOUSAPHONE CHAIR**

Harry Wenger, a band leader and educator, always looking for ways to help his students and fellow musicians, designed a chair that supports the instrument's bulk. It allows musicians to concentrate on their technique. The Sousaphone Chair has not changed much since Harry Wenger's original design, neither has Wenger's desire to develop the innovations that enhance your musician's abilities.

## FEATURES/SPECIFICATIONS

- Three adjustable support arms enable optimum positioning of the Sousaphone
- 16 gauge base frame
- 15½" square vinyl clad seat
- Seat height is 16¼" at back and 16" in front

MODEL NUMBER 046D001 **PRODUCT** SOUSAPHONE CHAIR

## **ENSEMBLE STOOL**

The ensemble stool features telescoping legs and a wood seat. It's handy, convenient, and always in demand all over your facility.

## FEATURES/SPECIFICATIONS

- Telescoping legs enable seat height adjustments between  $25 \ensuremath{\mathscr{V}}\xspace''$  and  $33 \ensuremath{\mathscr{V}}\xspace''$
- 18-gauge steel legs
- 18-gauge steel footring in black
- Powder-coat paint finish
- 14" diameter wood seat

MODEL NUMBER 104A001 PRODUCT ENSEMBLE STOOL

"

"We're really happy with the Portable Audience Chairs - they're comfortable and good-looking. I like how the chairs latch together and the seat folds up automatically."

- Keith Harris, Theatre Facilities Manager & Scenic Designer, University of Wisconsin - Parkside, Kenosha, Wisconsin

## **PORTABLE AUDIENCE CHAIRS**

Here is a smart, affordable and flexible solution for fixed audience seating that can adapt to changing theater seating configurations. These chairs combine all the features and comfort you would expect from a luxury theater chair at a price that's just as comfortable. Available in standard and premier styles.

## FEATURES/SPECIFICATIONS

- Stable freestanding design that can be floor-mounted if desired
- Available in single, double and triple units
- Extra comfortable with thick padding
- Fine upholstery with classic styling
- Reliable automatic spring-return seat mechanism
- Premier Audience Chair features finished hardwood on back, bottom and arm rests for an elegant appearance
- Available in a wide selection of fabrics and wood stains
- Many custom design options are available
- Chair measures 21 26"w x 32"h in 1" increments

Mobile Cabinet worksurface available in Shark Grey only

#### CONFIGURATIONS

Call your Wenger representative or go online to configure your cabinet at www.wengercorp.com/storage/cabinet-configurator.php

"Before Wenger, we just winged it. Our media storage room was a mix of old library shelves and cabinets that other departments didn't want anymore. We had a multitude of users for various events and it was tough to keep it all organized. Wenger stepped in and put us back on the right path."

- Dann Hurlbert, AV Specialist and Film Studies, Instructor, Henry Sibley High School, Mendota Heights, Minnesota

### 39 | TEACHING TOOLS

### **MOBILE MEDIA STORAGE CABINETS**

As the role of technology in the classroom has increased, so too has the need for storage equipment that allows you to effectively manage and allocate it across classrooms. The Mobile Media Storage Cabinet is a flexible solution that's easy to maneuver and allows you to transport your valuable technology assets quickly, efficiently and safely.

#### FEATURES/SPECIFICATIONS

- Mix and match interior components including: Slide-out shelves, drawers, rackmount sections, power strips, accessories and more
- Sturdy wood design, durable worksurface top, rolling casters, and locking doors
- Two sizes available, one column measures 32"w x 245/8"d x 43"h and the two column measures 481/4"w x 245/8"d x 43"h
- Two configurations:
  - Standard Suited for drawers and shelves
  - Rackmount Built to hold rackmount units
- Finished in thermally fused polyester laminate

### **FIXED MEDIA STORAGE CABINETS**

Audio-visual equipment can create an unruly mess when left unorganized. Our Fixed Media Storage Cabinets are purpose-built for the storage and organization of audio-visual equipment. Handsomely designed, unbelievably spacious and secure, these cabinets remove the chaos and help to protect your valuable audio-visual investments.

#### FEATURES/SPECIFICATIONS

- Mix and match interior components including: Slide-out shelves, drawers, rackmount sections, power strips, organization grid, accessories and more
- Organize and protect your important equipment in a way that file cabinets and bookshelves can't
- Sturdy wood design, steel pilasters for mounting shelves, and locking doors for security
- Two sizes available, one column measures 211/2"w x 24"d x 855%"h and the two column measures 42"w x 24"d x 855%"h
- Three configurations:
  - Standard Suited for drawers and shelves
  - Organizer Wire grids let you add hooks and baskets
  - Rackmount Built to hold rackmount units
- Finished in thermally fused polyester laminate

## **REHEARSAL RESOURCE CENTER**

Downtime in a classroom is wasted time. The Rehearsal Resource Center puts all your controls, electronics and lesson materials right at your fingertips. Smartly designed and elegant in appearance, the resource center consists of separate left and right units that can be used either separately or connected to create a larger workspace. Finally, a resource center that works as hard as you do.

#### FEATURES/SPECIFICATIONS

- Ergonomical design with a 391/2" desktop height
- Choice of drawers or rackmount spacing and shelves for stereo system
- Five 4" swivel casters for easy portability
- Two lockable rear service doors for access to wiring, with top panel wire grommets
- Rolls through standard 3' doorway
- Side panels in choice of colors below
- Top, bottom and internal panels in graphite
- GREENGUARD Certified

- Six adjustable shelves in lower cabinet
- Two adjustable shelves in upper cabinet
- Cabinet measures 36"w x 23¼"d x 72"h
- GREENGUARD Certified

**MODEL NUMBER** 166E001 **PRODUCT** SMALL INSTRUMENT CABINET

### 53 | ELEMENTARY PRODUCTS

As the name suggests, the ORFFmobile and ORFFgarage are tailor-made to simplify the storage and transport of your valuable ORFF instruments. Now, even those big bass xylophones can be safely moved into playing position and then out of the way when not in use. And when it's music time, three stable surfaces allow you to put together an ensemble in a snap.

### **ORFFGARAGE**<sup>®</sup>

#### FEATURES/SPECIFICATIONS

- Four adjustable shelves in upper cabinet
- Full-length lockable doors
- Leveling pads on base
- Cabinet measures 48"w x 29¼"d x 72"h
- ¾" thermally fused composite wood
- GREENGUARD Certified

MODEL NUMBER

**PRODUCT** ORFFGARAGE

#### FEATURES/SPECIFICATIONS

- Makes it easy to move instruments and always keep them in ready-to-play position
- Three playing surfaces at different heights accommodate any child or instrument
- Solid-steel construction and 1/8" ABS plastic shelves create an extremely stable playing surface
- Easy-rolling casters make transportation smooth and stable when folded
- Mallet storage on cart

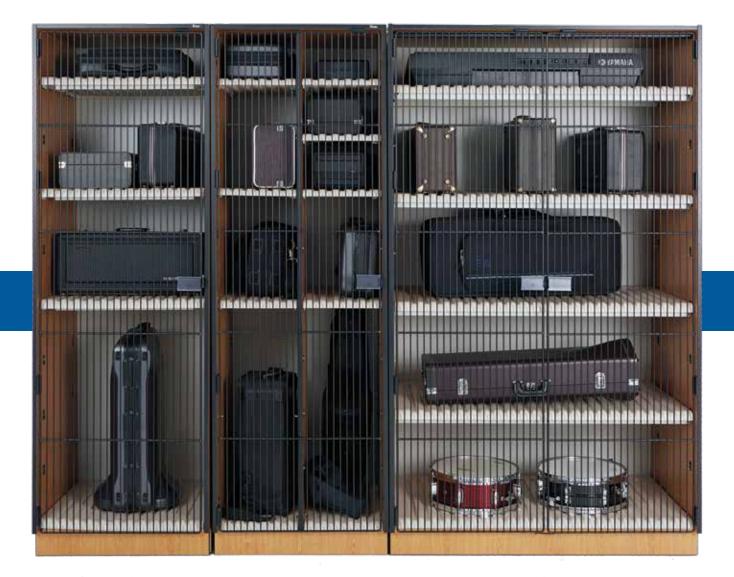

**MODEL NUMBER** 167D001 PRODUCT ORFFMOBILE

"Our three ORFFmobiles are easy to move in and out of the room as needed - they only take 30-40 seconds to set up. The ORFFmobiles help students know where to go and how to present themselves."

- Sterling Scroggins, Music Teacher, Wheatley Elementary School, Washington, D.C.

# **STORAGE SOLUTIONS**

Your music equipment and garments require storage that is organized and durable. Wenger offers storage options that are reliable, adjustable and mobile for your theater costumes, folios, sheet music and beyond. With more than 70 years of experience, there's a reason Wenger is the leader in instrument and garment storage.

Fixed Shelf Instrument Storage

Adjustable Shelf Instrument Storage

385/16" Instrument Storage

99

"Our Wenger cabinets enable students to keep their instruments and belongings safe. With open shelves, security can be a major issue. We're very happy to have the cabinets and they're holding up really well."

- Oscar W. Wright, Director of Bands, R.B. Stall High School, North Charleston, South Carolina

### 57 | STORAGE SOLUTIONS

UltraStor Cabinets are the world's most trusted and proven instrument and uniform cabinets. The quality materials, solid construction and adjustable shelf option make these cabinets the industry's go-to storage choice.

#### FEATURES/SPECIFICATIONS

- Load-tested doors, bolt-through construction and polyester laminate
- Heavy-duty hardware, top-quality doors, and tamper-resistant shelves
- Designed to specifically meet the needs of educators with the right size compartments, cabinet heights and features specific to instruments and equipment
- Choose between solid doors, straight or waterfall grille doors or no doors
- Attractive polyester laminate and composite wood core resists chipping and looks new years longer than other laminates
- Shelves feature patented ventilation ridges and rounded front edges, improving airflow crucial to musical instrument, equipment and garment longevity
- Fixed or adjustable shelf options available
- Three heights available: 855%", 693/4" and 385/16"
- Standard and narrow widths available
- Available with right- or left-hinged (standard) doors for easy access
- Seismic-compliant bracing available upon request
- Available in several core substrates to meet your specific needs: fire-rated, industrial-grade composite wood with no added formaldehyde (standard), moisture-resistant, FSC certified and Vencore (plywood)
- GREENGUARD Certified

Fixed Shelf

Wenger Cabinets come in a wide variety of configurations. Call your Wenger representative for the best solution and budget estimate for your program.

## **ACOUSTICABINETS**<sup>®</sup>

Add instrument storage cabinets to your rehearsal space without sacrificing the acoustical integrity of your space with AcoustiCabinets. Our patented design is the industry leader in the sound absorption, security and durability.

#### FEATURES/SPECIFICATIONS

- Independently tested solution provides more than twice the sound absorption as standard storage cabinets
- Unique curved grille door design minimizes a room's cubic volume loss and reduces distracting vibrations
- Load-tested doors, bolt-through construction and polyester laminate
- With ridges designed for ventilation and a rounded front to prevent damage to instruments, our one-piece polyethylene shelves are unique in the industry and nearly indestructible
- Heavy-duty hardware, top-quality doors and tamper-resistant shelves keep your valuable investments safe
- Available in all standard Wenger cabinet sizes
- GREENGUARD Certified

A rehearsal room with Wenger's AcoustiCabinets and used in conjunction with absorber and diffuser panels can create an acoustically balanced environment. Loudness is controlled and balanced over the full audible range.

## **CORNER STORAGE CABINETS**

Maximize your space with cabinets designed to fit corner spaces. As one of our most versatile storage options, the Corner Cabinets fit perfectly into any corner and can be equipped with up to six adjustable stationary or revolving shelves and fixed or revolving garment bars.

#### FEATURES/SPECIFICATIONS

- Cabinet measures 481/4" w x 481/4" d x 845/8" h
- Heavy-duty construction
- GREENGUARD Certified

#### STATIONARY SHELF MODEL FEATURES/SPECIFICATIONS

- Door opening is 24" wide for easy access
- Up to six 48" wide adjustable shelves
- Side panels are 29" deep
- Accommodates adjustable 48" wide shelves
- Available with stationary hanger bars or shelves

#### **REVOLVING SHELF MODEL FEATURES/SPECIFICATIONS**

- Available with revolving hanger bars or shelves
- Includes deflector panel to prevent items from falling off revolving shelves
- Will accommodate up to six 360° shelves

## **GEARBOSS<sup>®</sup> SHELVING**

Great for music equipment, theater costume and prop storage. GearBoss Shelving offers rugged, adjustable metal shelving that is perfect for storing your equipment. A versatile system that can be configured to your specific needs, the cantilever design maximizes both overhead and floor space.

#### FEATURES/SPECIFICATIONS

- Configure your optimal storage space by adding shelves, workspace desks, drawers, locking cabinets and hanger rods
- Cantilever design has fewer supports to give you extra space and make cleaning easier
- Adjust shelves in 1" increments without tools
- Each bay is load-rated at 1,000 lb
- Easy to install and relocate
- Available in 4'w x 8'h bays
- Silver powder-coat paint finish
- GREENGUARD Certified

Three bays shown

#### CONFIGURATIONS

GearBoss<sup>®</sup> Shelving comes in a wide variety of configurations. Call your Wenger representative for the best solution and budget estimate for your program.

## SHEET MUSIC STORAGE

### **MUSIC LIBRARY SYSTEM**

Cut your storage space in half with Wenger's Music Library System. Built for maximum organization with the minimal amount of wall space. Our patented high-density rollout design keeps your sheet music clean, crisp and easy to find.

#### FEATURES/SPECIFICATIONS

- Designed to accommodate most music filing boxes, end-tab file folders and envelopes
- Shelves feature a protective polyester laminate and are reinforced with an aluminum extrusion to prevent sagging
- Available in six or seven shelf units
- Available in standard or oversized width shelves
- Interior shelves and base are Oyster
- GREENGUARD Certified

#### ACCESSORIES

Lock Kit | Top Closure Kit

Four units shown

Adjustable shelves allow you to conveniently store sheet music for choral, instrumental, choral octavos and marching band - even lesson books and compilations - all in the same easy to use unit.

An average-size music program needs as many as 10 four-drawer file cabinets – that take up 13<sup>1</sup>/2' feet of wall space – just to accommodate 1,000 titles.

But Wenger's slideout-shelf design lets you store those same 1,000 titles in a 4-unit system that takes up only 5'8" of wall space.

# **GEARBOSS® HIGH-DENSITY STORAGE**

Engineered for maximum flexibility, GearBoss high-density storage carts give you a customizable, spacious storage system for music, athletic, phy-ed equipment and uniforms. There is nothing a combination of our different storage carts can't handle, and your Wenger representative can design the best arrangement for you.

## X-CART<sup>™</sup>

#### FEATURES/SPECIFICATIONS

- X-Cart is available in two sizes and measures 32" or 48"w x 78"d x 79"h
- Roller guides follow the track keeping the units aligned
- Rugged construction with welded chassis and steel wire grille end frames
- Heavy-duty 8" wheels allow the cart to roll smoothly on the track
- Durable powder-coat paint finish
- Wire grille ends come in a variety of colors to match your program colors

#### ACCESSORIES

Doors | Shelves | Garment Bars | Hangers | Stackers | Attic Units | Track

## **TEAM CART**<sup>™</sup>

#### FEATURES/SPECIFICATIONS

- Team Cart is available in two sizes and measures 32" or 48"w x 78"d x 79"h
- Roller guides follow the track keeping the units aligned but are retractable for when you need to remove the cart from the track
- Rugged construction with welded chassis and steel wire grille end frames
- Heavy-duty 6" swivel casters make transportation easy
- Durable powder-coat paint finish
- Wire grille ends come in a variety of colors to match your program colors

#### ACCESSORIES

Doors | Shelves | Garment Bars | Hangers | Stackers | Attic Units | Track

"Storing and transporting marching band uniforms and hats is much easier with our GearBoss Team Carts. The uniforms are well-protected and we now can get prepared faster at band reviews."

- Bruce Tipton, Band Director, Vanden High School, Fairfield, California

## **SPORTCART**<sup>™</sup>

Built with the same features as the Team Cart and just as solid, the SportCart is a smaller storage unit that easily navigates small hallways, short doorways, and most elevators. Take your equipment wherever you need with ease.

### FEATURES/SPECIFICATIONS

- SportCart measures 32"w x 41<sup>3</sup>/4"d x 73"h
- Extra wide heavy-duty 5" swivel casters for easy moving on
- hard surfaces such as concrete, gym floors, tile and commercial grade carpetDurable powder-coat paint finish
- Wire grille ends come in a variety of colors to match your program colors

#### ACCESSORIES

# VAE<sup>®</sup> TECHNOLOGY

Wenger's VAE (Virtual Acoustic Environments) uses highly advanced technology to simulate the acoustics of nine different performance spaces at the touch of a button. The VAE system can be installed in any music space, from a small music studio to a large rehearsal room. Built-in features such as record/playback make this technology a powerful tool in the music classroom.

**Multipurpose Room Acoustics** Adjust the acoustic environment and volume level to meet the needs of your music programs. Soloist? Turn the room acoustics up for support. Percussion section? Turn the room acoustics down for clarity and safety.

**Nine Performance Environments** VAE offers a broad range of performance environments, ranging from a small ensemble room to a cathedral and large sports arena.

**Accelerate Learning** Supportive room acoustics help students learn to listen and facilitate the development of pitch, tone and overall sense of ensemble.

**Record and Playback** Get immediate feedback with high quality recordings and immersive playback; a great tool for assessments and ensemble work.

**Upload and Download** Upload an accompaniment or take an ensemble recording home to practice with.

#### **CONFIGURATIONS**

Whether part of a larger renovation or an addition into an existing classroom, our experienced team makes the VAE design and installation as seamless as possible. Call your Wenger representative for a consultation today.

"The Wenger practice room works out very well as my teaching studio, especially the excellent sound isolation. The VAE technology's recording/playback is a fabulous teaching tool that I use in lessons. By listening to themselves, students get immediate feedback and awareness of how they actually sound."

- Ben Coelho, Professor of Bassoon, University of Iowa, Iowa City, Iowa

## VAE<sup>®</sup> REHEARSAL SYSTEM

Wenger's VAE technology transforms the acoustics in your rehearsal space to meet the needs of any size ensemble or music style. VAE Rehearsal optimizes balance and blend in the classroom, allowing each member of your ensemble to hear themselves and other sections more clearly.

**Flexible Acoustics** Take complete control of the sound level and acoustic signature of your rehearsal space. Adapt your classroom to meet the needs of each ensemble and musical style.

**Custom Preset** Wenger's acoustic engineers can map the acoustic environment of your performance venue and custom program it into the VAE Rehearsal system, taking your rehearsals to the next level.

**Critical Listening** Develop listening skills and adapt to performing as an ensemble in a variety of spaces.

**Record and Playback** VAE Rehearsal uses high quality microphones and loudspeakers for an accurate recording and immersive surround sound playback experience.

**Seamless Integration** Each VAE Rehearsal System is individually designed to meet the unique needs of your rehearsal space and music program.

## **STUDIO VAE**<sup>®</sup>

Studio VAE is an ideal package for any small practice or studio room, converting what are traditionally small spaces that are not ideal for music into so much more. Able to install into any room less than 200 square feet with ease, Studio VAE is a great option for both teachers and students.

### INCLUDES

- VAE digital processor & control panel
- Four speakers
- Two microphone wall panels
- All cables and speaker wire for complete installation

"Part of my interest in the VAE Rehearsal system was the ability to have a "Wayzata Auditorium" setting. The Wenger acousticians and engineers measured the acoustic environment in our auditorium and emulated that in our rehearsal room, making a smooth transition for our young musicians. Now when we're rehearsing in our orchestra room, we can feel like we're rehearsing on our stage."

- Mark Gitch, Orchestra Director, Wayzata High School, Plymouth, Minnesota

# SOUNDLOK<sup>®</sup> SOUND-ISOLATION ROOMS

Great sound isolation is difficult to design and even more challenging to build. The smallest shortcut in construction of brick and mortar music practice spaces can result in poor isolation performance. For over 50 years, Wenger's SoundLok rooms have been providing excellent sound isolation in a wide variety of music education programs worldwide. Due to their modular format, SoundLok rooms can be relocated or resized as your music program grows.

### FEATURES/SPECIFICATIONS

- Wenger guarantees the sound isolation with the highest rating in the industry, making each room 25% quieter than similar rooms on the market
- The correct amount of absorption and diffusion is built-in for the best possible environment for music practice
- VAE technology (optional) allows musicians to practice in the acoustics of different performance spaces, make professional quality recordings and play along with accompaniments through built-in fully immersive surround sound system
- An independent cost study shows that the Wenger SoundLok room costs 10% less on average when compared to a properly constructed stick-built practice room
- Clean, professional 4" thick steel wall and ceiling panels are filled with high-grade acoustical insulation
- Rails, channels, and corner pieces interlock panels at the floor and ceiling with double-seated gasketed seams
- Glass door and window panels (optional) allow for easy monitoring, personal security, and inviting ambiance.
- Connect directly to building HVAC (or optional fan ventilation system) for quiet and efficient air exchange
- Dimmable LED lighting for lower power consumption
- Room heights (interior) available in 6" increments from 7'6" 10'
- Door Options: 3' standard; 4' door for large instruments; double door for grand piano
- GREENGUARD Certified

#### ACCESSORIES

- Horizontal broadcast application window and vertical window panels
- Horizontal and vertical closure panels to create a complete, built-in look for side-by-side installations
- Extra-capacity raceway for communications and network cabling
- Floating floor (inset in room) provides impact noise reduction for percussion rooms

"We have five SoundLok practice rooms with VAE technology. Students practice in them constantly - at lunchtime, before school or after school - so I know they're enjoying them. Students use the acoustic settings and recording capability and can practice without disturbing our rehearsals."

- Dr. Buddy Clements, Band Director, Walnut High School, Walnut, California

## 89 | ACOUSTIC SOLUTIONS

# **PRE-ENGINEERED ACOUSTICAL DOORS**

We've heard too many horror stories about poorly fitting doors and inadequate sound isolation. That's why Wenger engineers and acoustical experts have created an acoustical door that provides superior sound isolation. We've created an advanced split-frame design that accommodates virtually any wall thickness so every Wenger acoustical door fits perfectly. After all, even a small gap or imperfection can create enormous acoustical problems. Because our doors are pre-engineered, you'll be assured a high-integrity installation.

Superior Sound Isolation - Every door is pre-engineered to make it easy to install and to provide minimum sound leakage, rather than relying on a contractor to assemble a "door kit."

Continuous Cam-Lift Hinge - A continuous cam-lift hinge eliminates pinch points and provides a solid seal at the bottom of the door for maximum sound isolation.

Teflon<sup>®</sup>-Coated Sweep Seal - Allows door to close easier with stainless steel sill plate and creates a tight seal for maximum sound isolation.

### FEATURES/SPECIFICATIONS

- Minimizes sound leakage outside of room to surrounding environments
- Most doors with one-hour UL® fire rating
- Durable, maintenance-free hinges up to 100,000 cycles
- Standard mortise pocket for easy leverset installation
- Door widths: 3', 31/2', 4', and 6' double door with removable mullion
- Installs in wall thicknesses 4<sup>1</sup>/<sub>2</sub>" 12<sup>1</sup>/<sub>2</sub>"

# **TRADITIONAL ACOUSTIC PANEL SERIES**

Enhance the acoustics of your rehearsal space with Wenger's Traditional Acoustic Panels. We design and manufacture a wide-range of panel sizes, types and finish options. Since the needs of each space are unique, Wenger provides consultation on how to optimize the acoustics in your rehearsal room.

**Guaranteed Acoustic Performance -** Every room is first analyzed to provide the best solution of absorption and diffusion, and then Wenger guarantees the resulting acoustical performance.

**Solves Acoustic Problems -** Wenger understands the acoustic problems that negatively affect rehearsal room such as flutter echo, hot spots and dead spots, lack of clarity, and excessive loudness. Wenger has a diverse product offering to effectively eliminate these problems.

**Diverse Product Offering -** Wenger has engineered five unique technical designs, in dozens of sizes, shapes, diffusion angles and finish options, to yield a broad selection of acoustic panels.

Wenger acoustic panels add visual appeal. You can choose from dozens of attractive fabric floors to coordinate with other Wenger products and compliment your color scheme.

### CONFIGURATIONS

Call your Wenger representative for the best solution for your program and an estimate to help you budget your investment.

"The acoustical treatment has really changed our rehearsals; my students are excited to hear the difference. Band comes alive when you can move beyond learning your own part to analyzing other parts and hearing what the composer intended. I think that's the ultimate enjoyment and reward of music in the band setting – it's about the ensemble"

99

- Anthony H. Bailey, Director of Bands, Hart High School, Santa Clarita, California

## 91 | ACOUSTIC SOLUTIONS

# **DYNAMIC ACOUSTIC PANEL SERIES**

Wenger's Dynamic Acoustic Panels have an upscale finish and the series includes the patented Tunable Panel, which can change its sound absorption properties. A system of tunable panels can be used to create a truly flexible classroom, ideal for various music styles and ensemble sizes. Simply turn the handle of the tunable panel to the left to maximize absorption, and right to maximize diffusion. Take control of your room acoustics with the Dynamic Panel Series.

**Flexibility** - Allows the same rehearsal space to be used for both instrumental and choral rehearsals. A series of tunable panels can change the reverberation time by 0.5 to 0.8 seconds. Acoustic test data is available.

**Innovation** - The tunable panel combines the latest manufacturing technology with innovative engineering for a truly unique product that you won't find anywhere else. The simple turn of a handle changes the amount of airspace behind a microperforated panel, changing how much sound is absorbed across a wide-range of frequencies.

**Aesthetics** - With their unique shape and finishes, the dynamic panel series offers a fresh look for college and university recital halls as well as rehearsal rooms. Dozens of fabric colors are available, as well as woodgrain finishes to match other Wenger products.

### FEATURES/SPECIFICATIONS

- Series includes tunable panel, as well as matching absorber and diffuser panels
- Tunable panel is easily interchangeable for absorption or diffusion
- Provides broad range of variable absorption, from 125Hz to 2000Hz
- Durable construction and replaceable fabric cover
- Available in 4'w x 4'h and 4'w x 8'h sizes

Diffusion Mode Reflects sound waves for improved blending of sound.

Absorption Mode Absorbs sound waves to lower sound level.

# LEGACY<sup>®</sup> CLASSIC ACOUSTICAL SHELL

Legacy is an excellent portable acoustic shell that can transform just about any space into an impressive-sounding performance venue, while still being a simple one-person set-up. The Legacy Classic is the go-to choice for an easily maneuverable yet professional shell.

#### FEATURES/SPECIFICATIONS

- Designed for one person to set up in a short amount of time
- Adjust the canopy angle for optimizing sound reflection to the audience.
- No protruding front legs eliminates interference with setup and trip hazards
- Lift mechanism to raise and lower shell
- Filler panel provides full coverage within 1" of floor and folds up for storage
- All panels fit flush with no overlap shadows or exposed fasteners
- Fully extended height is 15'2"
- In storage position, unit fits through 36"w x 80"h door opening
- 90 square feet of reflective surface
- Units nest for storage

### COLORS

Roll shell into place. Lower its kick panel and raise and set the canopy.

Use tool to adjust canopy angle for optimum sound projection.

Turn handle of lift mechanism to set shell height into performance position.

Position panels together to create your finished shell.

**MODEL NUMBER** 186L054 186L055 **PRODUCT** LEGACY CLASSIC, TAPERED CANOPY LEGACY CLASSIC, RECTANGULAR CANOPY

\*Additional charge for Harvest Maple

"I cannot believe the difference in sound when the Legacy shell is up. Our gym has very good acoustics, but I can clearly tell whether or not the shell is up. The Legacy shells are very easy to work with my kids and I can easily handle them."

- Cydney Dixon, Band Director, Lower Lake High School, Lower Lake, California

# **LEGACY<sup>®</sup> BASIC ACOUSTICAL SHELL**

Turn your gym or cafeteria into a performance venue in minutes with our Legacy Basic acoustical shell. Designed for a one-person setup, just roll it into place, set the canopy angle and crank it up to its full height for impressive acoustics on a budget.

### FEATURES/SPECIFICATIONS

- Sets up quickly and raises in a few seconds
- Canopy adjusts to four different angles to optimize reflection to the audience
- No visual hardware on front panel eliminates exposed screws and brackets that may cause unwanted light reflections
- Fully extended height is 13'6"
- Upper panels are 1" thick with honeycomb core. Lower panel is ¾" thick with laminated wood core
- Easy, intuitive lift mechanism for raising and lowering shell
- Canopy adjusts to 45, 60, 75 and 90-degree angles
- Legs protrude in front of shell to provide counterweighted base design
- Canopy panel is 6'w x 36"h

Shells nest together for

ompact storage.

Roll shell into place

desired canopy angle.

Lift canopy to preset angle for optimum sound projection.

Turn handle of lift mechanism to set shell height into performance position.

# **ACOUSTIC SHIELD**

The Acoustic Shield effectively reduces potentially damaging sound energy and features a unique cantilever arm that extends over chair backs for ideal positioning behind the head of the musician. This easy-to-use, lightweight shield has a low-profile base that provides excellent stability without interfering with musicians or stands.

### FEATURES/SPECIFICATIONS

- Large 221/2"w x 17"h shield surface for maximum diffusion
- Use at its higher position to deflect sound around a musician's head or use it at its lower position to help project French horn sound
- Adjustable height from 10" 43"
- Folds compactly with built-in carrying handle

# **TRAVELMASTER<sup>™</sup> ACOUSTICAL SHELL**

With the Travelmaster Acoustical Shell, you can bring a reliable acoustic environment with you wherever you perform. Durable and lightweight, these shells were equally built for maximum portability and sound reflection so you can give a perfect performance every time.

### FEATURES/SPECIFICATIONS

- Sets up easily and disassembles fast for transport anywhere
- Lays flat and compact for transport on the Travelmaster Storage Cart
- A six-unit set can be set up or taken down in less than 30 minutes
- Formed ABS panels have built-in diffusion providing excellent cross communication for ensembles
- Durable, lightweight panels provide large, acoustically reflective geometric surfaces
- Legs are designed to fold out for fast setup
- Base panels adjust from 9'4" 12'2" heights
- 3'1"w x 9'6"h filler panels attach to base panels

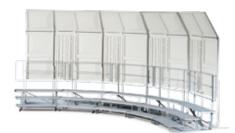

Roll shell into place.

Set-up panels.

Adjust canopies to the desired angle.

Position panels together to create your finished shell.

# SIGNATURE<sup>®</sup> CHORAL RISERS

Our Signature Choral Risers are designed to incorporate every meaningful advantage possible, all with a full 15year warranty. An easy-to-reverse design and adjustable riser arrangement makes for quick and secure transitions. Optional side rails attach without tools, while 3- and 4-step models roll easily through standard doorways.

### FEATURES/SPECIFICATIONS

- Formed and welded steel construction for unparalleled stability and quiet performance
- Fold-down design allows easy one-person setup
- Integrated backrail with child-height safety crossbar
- Bolt step mount provides the safety of bolted construction while letting you reverse steps to create new setup configurations
- Singers feel confident standing on Signature risers with a 150 lb live load capacity per ft<sup>2</sup>
- Designed for in facility use, easily fits through standard doorways
- Rubber edging protects risers when being moved or stored

\*First number indicates how many high school students will fit on a riser set if all students stand shoulder to shoulder. Second number indicates how many students will fit on a riser set if they are all facing center with shoulders overlapping. Numbers include a row of students standing on the floor. Adult groups should use lower number.

For a straight arrangement, alternate reversed riser units with regular units.

For a winged arrangement, reverse only the center unit.

For a horseshoe arrangement, reverse the center unit and add three regular units to each end.

For a semicircular arc, place regular units end to end.

#### COLORS

Step supports are welded steel for maximum stability and strength. Backrails are permanently attached for maximum safety. Risers have a stable, secure contact with the floor when in the performance position.

**RISER REVERSIBILITY** 

Easily change riser arrangements by simply switching the position of the steps on the frame. You can configure Signature Risers into straight, winged, horseshoe, or semicircular designs that are every bit as secure as the original position.

# **TOURMASTER® CHORAL RISERS**

No other risers travel this smoothly; it's easy to take them around tight corners, across the parking lot and into a bus or a van. Tourmaster risers will deliver reliable operation for a long time, guaranteeing that they are your best value for a traveling riser. No wonder they are the #1 choral riser in the world.

### FEATURES/SPECIFICATIONS

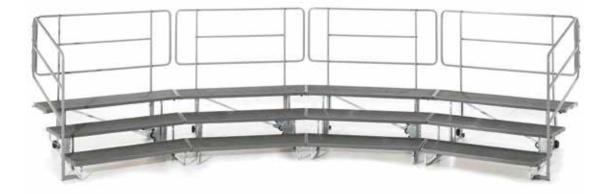

- A proven design that can withstand the rigors of institutional use
- Folds and unfolds in 10 seconds
- Across country or across town, Tourmaster Risers fold, roll and travel smoothly
- Minimal storage space required when not in use
- Safe and solid traveling riser with 125 lb per ft<sup>2</sup> load capacity
- Durable carpeted plywood steps in both 18" and 24" depth
- Steps can be reversed to create different configurations
- Steel frame with heavy-duty wheels and built-in stair glides stands up to years of use
- 3-Step/18" deep model available in 4' and 6' lengths, with optional 4th-step addition
- 3-Step/24" deep model available in 4'7" length, with optional 4th-step addition

#### **ACCESSORIES**

4th-Step | Backrails | Siderails | Move & Store Cart

#### **COLORS**

Tourmaster units roll smoothly through hallways, around tight corners, and up and down stairways.

auickly unfolds accordion-style.

Step on the frame and pull the riser toward you to raise it to the upright position.

Optional safety backrails and siderails attach quickly and securely without tools.

Move and store your riser sets wherever you need them. Each cart holds up to four risers, plus backrails and 4th-step additions.

"We have several sets of Tourmaster Risers, which we use in different places around campus, like the refectory, chapel or headmaster's house. We also take them off-campus. Their flexibility and mobility makes them perfect for us."

- Robert Palmer, Chairman of Performing Arts, Avon Old Farms School, Avon, Connecticut

#### **TOURMASTER CHORAL RISER SETS**

#### CONFIGURATIONS

StageTek® comes in a wide variety of configurations. Call your Wenger representative for the best solution and budget estimate for your program.

"We're a very creative school - everyone is full of ideas - and our StageTek platforms adapt to almost anything: theatrical presentations, musicals, dance, opera or multi-department events. We're making full use of them."

- Chris Krambo, Technical Director, Los Angeles County High School for the Arts, Los Angeles, California

## 105 | STAGING AND SEATED RISERS

StageTek is the standard for versatility. Lighter, stronger, easier to handle
and faster to set up, the StageTek staging system is as elegant and stable
as it is durable and repairable. Compared to anything else, StageTek is the
best all-around platform and investment.

#### FEATURES/SPECIFICATIONS

- Simple, economical, plug-in legs make an unlimited number of configurations possible
- Legs are fabricated from round 2½" diameter aluminum extrusions and finished with a non-marring cap
- Legs are available in three types: Fixed height, telescopic, and adjustable height
  Standard Uniform Load: 125 lb/ft<sup>2</sup>
- Heavy-Duty Uniform Load: achieved with center leg or smaller decks, 200 lb/ft<sup>2</sup>
- Easy-to-handle platforms have lightweight aircraft-grade aluminum frames with rounded contours that are easy to grip
- Decks are ¾" thick and constructed of Group I veneer plywood with a protective laminate on both sides
- Decks have cast aluminum leg sockets and are secured quickly without the use of tools
- Fixed leg height: 8", 16", 24", 32", 40" and custom sizes available

**EXAMPLES OF TYPICAL RISER SETS** 

Pie sections are the key to creating different shaped configurations. As illustrated in these sets, one tiered riser set can be arranged in several different shapes by changing the position of the pie sections.

\*Seating capacities are based on one row of chairs on the floor.

## **CONFIGURATIONS**

StageTek® comes in a wide variety of configurations. Call your Wenger representative for the best solution for your program and an estimate to help you budget your investment.

#### 107 **STAGING AND SEATED RISERS**

# **STAGETEK<sup>®</sup> ADA-COMPLIANT DISABILITY RAMP**

Wenger portable ramps are strong, stable and easy to assemble. They have been designed to attach securely to Wenger staging units and are available in a wide variety of heights and configurations. This cost-effective ramp solution helps ensure that all performers have an equal chance to take the stage.

#### FEATURES/SPECIFICATIONS

- Ramp design meets all guidelines of the Americans with Disabilities Act (ADA) according to the 2015 International Building Code (IBC)
  - Hand rails are continuous throughout ramp
  - Clear width on ramp is a minimum of 36"
  - Landings are a minimum of 60"w x 60"d at any direction change
  - Railings extend 12" at end of handrails
  - Contrasting color indications designate any elevation changes
- Multiple ramp configurations available to fit your needs
- Compact storage is ideal for facilities that have limited storage space
- Parts are labeled for quick set-up
- Adjustable legs are provided for easy set-up on uneven surfaces

#### ACCESSORIES | See StageTek Accessories Page Mid-Rails

#### **CONFIGURATIONS**

StageTek® ADA-Compliant Ramps are customized to your specific application. Call your Wenger representative for the best solution and budget estimate for your program.

# **STAGETEK<sup>®</sup> ACCESSORIES**

The StageTek system on its own is the most versatile on the market, but combined with Wenger's accessories you can customize your stage even further. Stairways, rails, skirts, backdrops and more make it the last staging system you'll ever buy.

3-STEP ARTICULATING STAIRWAY FOR 12" - 24" STAGE HEIGHTS

4-STEP ARTICULATING STAIRWAY FOR 16" - 32" STAGE HEIGHTS

## **STAIRWAYS AND STEPS**

Easy-to-attach stairways include dual, heavy-duty handrails and safety treads on 3'-wide steps without tools. Our articulating, variable-height stair units adjust to a range of stage heights. Available in 3-step, 4-step, 6-step, and 8-step models. Our fixed-height units come in 2-, 3-, or 4-step models. Box steps are available for StageTek Audience Seating.

 STAGETEK ROLL-A-DECK KIT (4 LEGS WITH CASTERS)

 Note: decks not included, example shown has two kits and two decks

### CLOSURE PANELS

Front and side closure panels for seated risers cover the space between levels and enclose each end to create a finished, built-in look.

# SKIRTING & BACKDROPS

Add finishing touches to complete your stage with skirting and backdrops.

### BACKDROP FRAME

Supports a curtain up to 8' tall. The frame connects to the guardrail and clamps to the legs of your deck without tools. Curtain attaches with hook and loop fastening strips.

# **TROUPER® STAGING**

Trouper Staging features a fold-out design without the hazard of pinch points found in many fold-androll stages. Trouper staging is built with superior structural integrity and the highest quality materials to ensure reliable operation over a long life.

#### FEATURES/SPECIFICATIONS

- Integrated platform and legs make setup simple and tool free
- Camlock unit-to-unit connector provides a safe and solid connection between units
- Heavy-duty construction with a 200-lb-per-square-foot live load rating
- Frame constructed of solid 16-gauge steel
- Decks constructed of <sup>3</sup>/<sub>4</sub>" solid plywood
- Deck edges are fully capped by finished steel edging that overlaps and protects the deck surface and carpet
- Legs unfold quickly for easy setup
- Fixed-height leg lengths: 8", 16", 24", and 32"
- Optional dual-height leg lengths: 16"/24" and 24"/32"
- Individual decks available in 6'w x 3'd, 6'w x 4'd, 8'w x 3'd and 8'w x 4'd

# **STAGEHAND<sup>®</sup> STAGING**

Wenger Stagehand Staging is an easy to handle, one-person setup platform. Utilizing gas-assisted springs to help smoothly and safely lower the stage into position, this durable platform is stable, compact and easy to maneuver.

#### FEATURES/SPECIFICATIONS

- Gas-assisted springs and integrated platform-to-leg connectors make setup and takedown fast and intuitive
- All-in-one system with no loose parts
- Camlock unit-to-unit connectors attach modular units into one safe, solid, rattle-free stage
- Load rating meets or exceeds building code requirements
- 16-gauge steel frame with ¾" plywood decks
- 8'w x 4'd decks with 16" and 24" fixed elevations; 16"/24" and 24"/32" dual-height elevations
- Folds up, rolls and nests compactly

# EVERY PIECE OF PERFOR HAS OVER OF STAGE E

## **PERFORMING ARTS**

From acoustics-optimizing shells and banners, to the most advanced theatre rigging and lighting integration solutions available, Wenger has the equipment you need to get the most out of your performance spaces. Wenger's deep and intimate understanding of these performance spaces translates into equipment that helps to maximize their

# MING ARTS EQUIPMENT 70 YEARS XPERIENCE.

potential for both performers and audiences. From full-stage auditoriums to black box theatres, Wenger performing arts equipment allows you to put your best stage forward.

Wenger | "RCLANCY

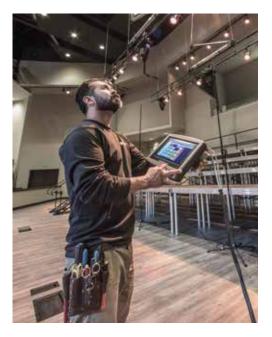

# **THEATRE RIGGING SOLUTIONS**

Wenger and J.R. Clancy. Two great names in theatrical equipment with a shared goal; deliver the best stage engineering solution for your auditorium or performance center. From hoists and motion control systems to counterweight rigging systems, Wenger and J.R. Clancy bring state-of-the-art performance solutions to your facility.

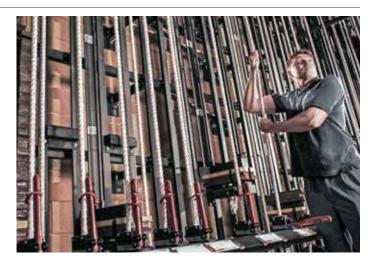

# **LIGHTING SOLUTIONS**

Wenger Corporation partners with premier lighting companies to provide comprehensive solutions for performing arts facilities. We function as a single point of contact for your lighting, control and networking integration needs. Each lighting solution works seamlessly with our manufactured products to ensure your venue shines in the lobby, on stage and behind the scenes.

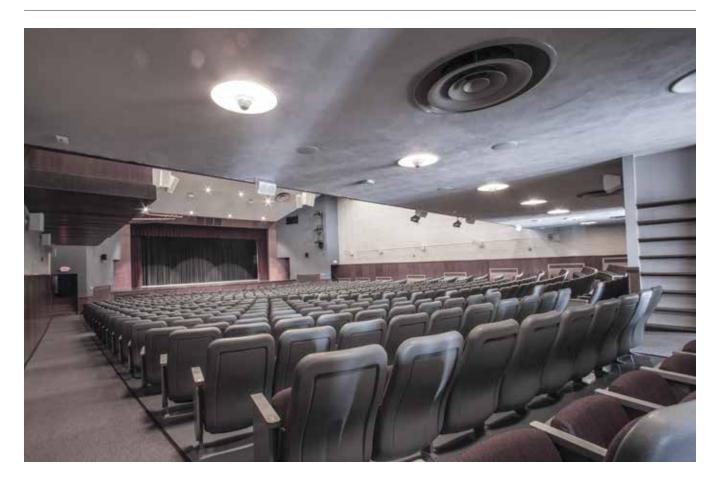

## **TRAINING, INSPECTION & MAINTENANCE PROGRAM**

Training, inspection and maintenance. These are the cornerstones of running a safe, code-compliant and efficient performance venue, and what the TIM® program is built upon. Wenger and J.R. Clancy-trained technicians will help train staff and protect your investment through regular inspection and maintenance to keep your facility running safely. We see little problems before they become big problems, and ensure every piece of equipment is in compliance with ANSI standards. Because the world's best theatrical production equipment deserves the world's best service.

## **TRANSCEND® ACTIVE ACOUSTICS**

Enhance the functionality and acoustics of any space with Transcend Active Acoustics. From performing arts centers, theatres and opera houses to arenas and places of worship, active acoustics technology requires fewer microphones and speakers to provide a more reliable and stable system. This streamlined, cost-efficient solution ensures the best possible sound quality for any seat in the house.

#### **FEATURES**

- Dynamic Advanced design. A dedicated, state-of-the-art processor for Active Acoustics using high speed digital audio communications with the other system components
- Clarity Natural reflections. Transcend Active Acoustics enhances the reflections of the space providing optimal acoustics for any performance or event
- Transport Technology transforms. From choral and symphonic to drama and lecture, Transcend Active Acoustics can optimize the space for each performance
- Connect Command and control. The entire system can be managed with remote control and visual monitoring using state-of-the-art Audio Architect software

# **FULL-STAGE ACOUSTICAL SHELLS**

## **DIVA® ACOUSTICAL SHELLS**

Diva acoustical shells combine industry-leading acoustics with the ease of portability to deliver unrivaled full-stage sound quality for performance spaces of all sizes. High-grade wood veneers impart a decided touch of elegance to your stage. With Diva, you get uncompromising acoustics and aesthetics in perfect harmony.

#### FEATURES/SPECIFICATIONS

- Beautiful, full-stage acoustics for optimum on-stage sound and excellent sound projection to the audience
- Perfect for medium and large theatres
- Modular design accommodates everything from full orchestras to string quartets
- Integrated Wenger Lieto<sup>™</sup> LED light fixtures available
- Finishes include: Paint, High-Pressure Laminate, High-Grade Wood Veneer and Custom Veneer Options

## **MAESTRO<sup>®</sup> ACOUSTICAL SHELLS**

With incredible sound quality, appearance and functionality, Maestro acoustical shells fit the demanding acoustic requirements of your performance center, and your budget. Maestro delivers impressive full-stage acoustics and elegant aesthetics.

#### FEATURES/SPECIFICATIONS

- Finishes include: Low-Pressure Laminate, Paint, High-Pressure Laminate, and High-Quality Wood Veneer panel finish
- Towers nest together to reduce storage space required
- Ceiling rows set up easily with a crew of as few as two people
- Integrated Wenger Lieto<sup>™</sup> LED light fixtures available

# TRANSFORM<sup>®</sup> ACOUSTICAL BANNERS

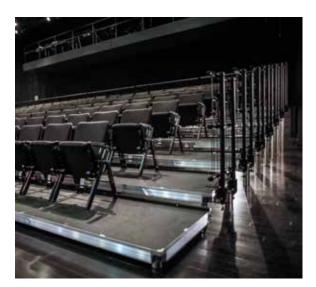

Optimize the acoustics of your performance space at the touch of a button. Transform motorized acoustical banners deploy quietly and quickly to control the levels of sound absorption and reflection in your space.

#### FEATURES/SPECIFICATIONS

- Available in 3' 10' widths
- Tubular motor driven system for use in an operator controlled or pre-set environment
- Banner system will integrate with J.R. Clancy's SceneControl<sup>™</sup> systems and other intelligent control systems

# **STAGETEK® TIERED AUDIENCE SEATING**

The StageTek® name is synonymous with innovation. Every StageTek component represents the pinnacle in design, engineering, materials and manufacturing. StageTek audience seating platforms are built on this industry-leading expertise, and give you the flexibility to create seating configurations that are right for the performance and the venue. A standing ovation is all but guaranteed.

#### **FEATURES**

- Load ratings (Uniform Load, Dynamic Load and Point Load) meet or exceeds building code requirements
- Easy-to-handle sections have lightweight aircraft-grade aluminum frames with rounded contours that are easy to grip
- Decks have cast aluminum leg sockets. Legs are quickly secured with the rotation of the knob
- Platform Decks are ¾" thick and constructed of Group I veneer plywood with a protective laminate on both sides
- Legs are available in three types: Fixed height, telescopic, and adjustable height
- Fixed height legs are available in lengths that result in the following deck heights: 8", 16", 24", 32" and 40"

# **UPPER DECK AUDIENCE SEATING® TIERED RISERS**

Every performance is different. Upper Deck tiered risers give you the ability to tailor your audience seating to the specific space considerations of the performance. The folding frame and innovative design make it easy to set up and take down. In fact, four people can install seating for 200 in about four hours. Corner sections improve sight lines, traffic flow and boost seating capacity.

#### **FEATURES**

- Patented design offers fast, easy and safe to install and reconfigure with user-friendly assembly
- Meets building code standards for grandstand seating, including guard rails and hand rails
- Simple innovative design with welded steel construction
- Max. deck elevation: 10'
- Corner sections are available to create 45° and 90° angles
- Standard or custom stairways available

## **PORTABLE AUDIENCE CHAIRS**

Here's a smart, affordable and flexible solution for fixed audience seating that can adapt to changing theatre seating configurations. These chairs combine all the features and comfort you'd expect from a luxury theatre chair at a price that's just as comfortable. Available in standard and premier styles.

#### FEATURES

- Stable freestanding design that can be floor-mounted if desired
- Extra comfortable with thick padding
- Reliable automatic spring-return seat mechanism
- Hardwood on back, bottom and arm rests for an elegant appearance.
- Standard chair dimensions: 32"h x 21-26"w in 1" increments
- Available in a wide selection of fabrics and wood stains
- Many custom design options are available

## **HIGH-DENSITY PORTABLE AUDIENCE CHAIRS BY CLARIN**

Comfortable. Flexible. Durable. These strong folding portable chairs are sure to leave a positive impression with your audience without leaving marks on the theatre or auditorium floors. X-frame construction prolongs the life of the chair and provides even weight distribution for enhanced comfort.

#### **FEATURES**

• Double tube and channel frame provides strength, durability and flexibility

DURABLE PORTABLE AUDIENCE CHAIR

- Multiple seat and back cushion options to chose from
- Lobe screws make seat backs virtually tamper-proof
- Duraflex action assures level seating on uneven surfaces
- Chair Width 18" or 191/2" add 21/4" per arm
- Seat 21¾"d x 17¾"h x 18¼"w
- Chair Height 31¾"
- Weight 16 lb
- Available Options: Without arms, one-arm, two-arms, ganging brackets, move and store cart, auto seat uplift, cupholder

# STRATA<sup>®</sup> ORCHESTRA PIT FILLER

Custom-designed to fit the exact specifications of your orchestra pit, STRATA orchestra pit filler provides incredibly strong support while freeing up an amazing amount of space below. The system connects to your existing stage with ease while the acoustically dampened decks fit snugly to create an integrated surface that is extremely quiet.

#### FEATURES

- Pre-assembled substructure components make setup fast and intuitive
- Deck corners are constructed of glass-filled nylon to help eliminate sharp edges
- Deck surface options: natural or painted tempered hardboard, and tongue and groove wood flooring
- Basic system meets IBC rating and a uniform vertical load of 150 psf
- Deck surface takes a point load of 1000 lb on a 2" caster without leaving permanent marks

Deck locks to the substructure with a simple hex wrench connection. Each deck is isolated from other decks to eliminate rubbing and potential noise generation.

CROSS BEAMS attach to the main beam with a quick tube-and-socket connection – and no tools. This ensures an ideal fit even in applications with a difficult-to-match wall radius.

DIAGONAL BRACES are bolted to main beams and cross •••• beams to eliminate loose parts and speed setup. Braces from each beam attach to columns with quick-release pins.

COLUMNS connect to the main beam with a quickrelease pin. This smart, simple system makes switching lengths of columns – or the height of your entire pit filler – faster and easier than ever.

LEVELING FEET on all columns.

MAIN BEAMS connect to your stage front with a simple bracket to ensure a seamless connection with the permanent stage.

"The Strata Pit Filler is great - we've been completely satisfied. It's much less expensive than a hydraulic lift system and a better solution for us. Other pit filler systems looked potentially dangerous and time-consuming to work with."

- Mike Nicolai, Technical Director, Oconomowoc Arts Center, Oconomowoc, Wisconsin

# **STUDIO<sup>®</sup> MAKEUP STATION**

Getting ready for a performance is a lot easier with the right facilities and stage amenities. The Studio Makeup Station offers performers the luxury, convenience and comfort of a professional, wall-mounted lighted makeup station. The station mounts into wall studs or masonry at any height and hardwires into the room's electrical system, so two adjacent stations can share one light column.

#### FEATURES

- Light columns give performers clean, shadow-proof illumination
- Curved countertop allows you to lean in just 15" from mirror
- Recessed tray and overhead shelf for additional storage space
- Steel-laminated construction keeps the mirror from curving or splintering
- Medium-density fiberboard with stain-resistant, matte-white laminate
- Permanently mounted <sup>3</sup>/16" diameter steel wire light bulb cages

## **BACKSTAGE® MAKEUP STATION**

Make the most of your limited space with the backstage makeup station. This lightweight, portable, lighted makeup station provides even, shadow-free lighting. And the large head-to-shoulders mirror makes it easy to achieve great results in a small space. This makeup station sets up on a table in seconds – just plug it in and go.

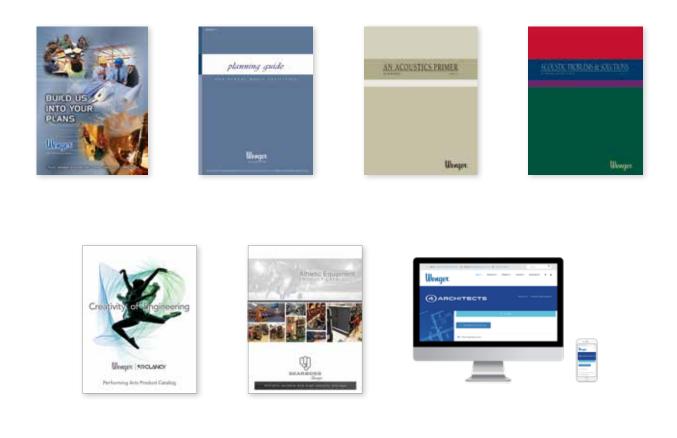

#### **FEATURES**

- Multiple stations nest together for compact storage
- Durable steel frame doubles as carrying handle
- Steel frame and unique aluminum light housing surround the mirror
- Single outlet and rocker switch combination with built-in GFCI protection
- Auxiliary power outlet operates with lights off

# PLANNING

## **PLANNING IS EASIER WITH OUR FREE PLANNING TOOLS:**

We offer six comprehensive, free guides (including guides for performing arts and athletic facilities), and a powerful, online planning tool specially designed for architects, to help you navigate the construction planning process to meet your dream of creating music, performing arts and athletic facilities that bring out the best in your musicians, performers and athletes.

"The Planning Guide was absolutely my bible during this project. It gave me a standard to reference and included some things I never would have thought about, related to room size, space usage and acoustics."

99

- Marc Riegel, Band Director Chapman Middle School, Chapman, Kansas

The success of your new facility depends on your plan. At Wenger we'll help you plan your ideal environment while balancing budgets, needs and space. For more than 70 years, we've helped educators and administrators get the most out of every dollar. No company has spent more time with music educators or studied more types of facilities. We understand how to make music programs more successful.

Your Wenger representative is in tune with music education and performance and will help you make smart, cost-effective decisions on everything from product selection to space allocation. You'll benefit from our close relationships with architects, ensuring your satisfaction by providing a trusted resource for the complexities of designing a space.

We can collaborate with your committee and give you the support you need to present your plan. It's important to know that from concept to completion, putting Wenger expertise to work doesn't cost you a dime.

The planning process can vary from project to project. Fortunately, every process follows a timeline of similar steps. From the passing of a school bond all the way to construction, Wenger can help you every step of the way.

#### **PLANNING PROCESS STEPS**

- 01 ► School Bond Vote
- 02 ► Pre-Planning
- 03 ► Programming
- 04 ► Schematic Design
- 05 ► Design/Development
- 06 ► Construction Documents
- 07 ► Bidding
- 08 ► Construction
- 09 ► Equipment Purchase
- 10 ► School Opening

77

"Wenger's Planning Guide gave me some real practical ideas which we used in two junior high music facilities - they turned out very well. I'm amazed that some architects don't take advantage of the materials Wenger has available. The Planning Guide is easy to read and offers excellent information."

- Edward K. Skahan, Vice President, Director of Design, Kluber, Skahan & Associates, Inc., Batavia, Illinois

# SUSTAINABILITY

For as long as we've been developing high-quality, durable products to meet the needs of our customers, we've also been exploring ways to be better stewards of the environment we share. Whether it's the nearly 1,000 tons of materials we recycled last year or the energy-efficient lighting in our plant, our goals have always been green. Check out the green box below to see some of the ways we're helping reduce, reuse and recycle.

#### SIMPLIFYING THE LEED CERTIFICATION PROCESS

As a member of the LEED Construction Initiative, Wenger has the insights and experience to make the LEED certification process easier for our customers to understand and attain.

#### **IMPLEMENTING THE PHILOSOPHY OF THE USGBC**

As a member of the U.S. Green Building Council, the group that developed LEED, Wenger is dedicated to fulfilling USGBC's mission to promote green building practices. We understand and embrace the principles behind the USGBC and its LEED Initiative, which is your guarantee that once you start down the road to LEED certification, you will be officially and enthusiastically supported every step of the way. usgbc.org.

#### FOREST STEWARDSHIP COUNCIL® (FSC®) CHAIN OF CUSTODY (COC) CERTIFICATE

FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. FSC provides internationally recognized standard-setting, trademark assurance and accreditation services to companies, organizations, and communities interested in responsible forestry. fsc.org.

#### **MEETING UL GREENGUARD CERTIFICATION**

The mission of UL GREENGUARD is to protect human health and quality of life through programs that help reduce chemical exposure and improve indoor air quality. To date, GREENGUARD has certified many Wenger products including Instrument Storage Cabinets, Posture Chairs and GearBoss® Storage Carts, with more certification to come. greenguard.org.

#### EVEN THIS CATALOG IS ENVIRONMENTALLY FRIENDLY

If you're reading the print version of this catalog, you'll be happy to know that it is printed with environmentally friendly materials. Please recycle this catalog when you are finished with it.

#### **PRODUCTS:**

- GREENGUARD certification for Chairs and Stands, Instrument, Garment, and Specialty Storage Cabinets, including UltraStor® and GearBoss® Storage Carts
- Optional environmentally sensitive core material in Instrument Storage Cabinets
- High-efficiency electronic ballasts in Sound-Isolating Practice Rooms

#### **MANUFACTURING:**

- Precise raw material ordering eliminates waste
- Computer-optimized cutting processes improve yield
- ISO quality-improvement tools reduce scrap
- Multiple use of manufacturing cooling/rinse water before discharge
- Residual material in aerosol cans is contained and disposed of properly
- Super-insulated drying and curing ovens minimize heat loss and reduce consumption

#### **OPERATIONS:**

- Use recycled paper, recycle all paper
- Regular facility-wide recycling collection
- Recycling drop-off for employees
- Routine collection of steel and aluminum dropoff

- Wax coating on Student Chair Tablet Arm Desks eliminates emissions vs three-step solvent process
- Powder paint finishing reduces waste by 65% vs plating/solvent processes

- Green cleaning agents and a non-metallic conversion coating vs caustic finish pretreatments
- Instant foam packaging free of CFCs and HCFCs used where possible
- Stretch-wrapping eliminates corrugated waste
- Pallets are reused or remanufactured
- Clean-burning diesel emission-control in Wenger delivery trucks
- Post-installation packaging is returned and reused or recycled
- Routine collection of oils used in manufacturing
- Electronic information delivery
- Advanced low-consumption plant lighting
- Smart HVAC central control system

# **TERMS AND CONDITIONS**

## PRICING

Prices are subject to change without notice. Prices shown do not include shipping and handling. In cases where payment will be made using non-U.S. currency, request a current exchange rate. For more information, please contact your Wenger representative. Instruments and accessories shown with specific Wenger products throughout the catalog are not included in the price and they do not come with the purchase of the product.

## **SHIPPING POLICY**

Prices shown do not include shipping and handling charges because we do not use a flat rate. In order to provide you the most favorable rate we calculate the cost of each shipment individually based on size and weight. Your Wenger representative is ready to provide you with a full quote, including shipping and handling based on your location and the weight of your order. All weights listed in our catalog are product weights, not shipping weights. For exact shipping and handling charges, please ask your Wenger representative.

## **DELIVERY AND INSTALLATION**

Wenger delivery and installation services are two great advantages of buying direct from Wenger. At your option, we will package, ship, and install your order with the care and understanding that only the product manufacturer can provide. Wenger drivers and installers are experienced professionals who are intent on meeting your needs and providing the service you expect. Wenger installation services will ensure that your Wenger investment is in perfect working order from day one and for many years to come. Please contact your Wenger representative for exact costs for these services.

## **CHANGES/CANCELLATIONS**

Any changes or cancellations to orders for standard product require written consent from Wenger. A 25% fee may apply if changes or cancellations occur within 15 days of shipment. Changes and/or cancellations to custom products including Customers Own Material (COM), finish matches, custom colors, rush orders, or modified products are not allowed.

## **DELAYS/STORAGE**

Two weeks advance notice is required when any delays in shipment, delivery, or installation beyond the acknowledged ship date are necessary. The costs of storage, rehandling, additional freight, and additional installation or labor costs will be billed to the Purchaser. If goods require storage, transfer to storage will be deemed as shipment to the Purchaser for all purposes including invoicing and payment.

### RETURNS

Returns are not accepted without written approval from Wenger. All authorized returns are subject to a minimum 20% restocking/ rehandling fee which may be higher depending upon the product. Custom products are not returnable.

## **CUSTOMER SERVICE**

If you have questions about your Wenger product or have any problems with your order, please call our customer service representatives at 1-800-887-7145.

## WARRANTY

Wenger products are guaranteed to be free of defects in materials and workmanship for a period as described in the Wenger Warranty statement. For complete warranty information, please contact the Wenger customer service department at 1-800-887-7145 or visit our website at wengercorp.com.
